

Update on Hajo!

Hajo arrived Feb./08 at trainer Ron Pilat's in Chilliwak. While he is going very well under saddle. Comments from Ron about Hajo have been exceptional. #1. This is one Happy Stallion with a gentle nature. #2 His temperament and work ethic is exceptional! #3. He is Awesome and I really, really like him!

On the progress report

Hajo had made very good progress. He is going very well under saddle, showing a soft elegant way of moving in all three gaits. His impressive gaits show suspension in his trot and lots of scope in his ground covering-canter. With his taller confirmation it is exciting to feel his extraordinary ability to carry himself very lightly in the bridle at this early stage of his training. He grows in confidence and strength daily giving the trainer pleasure in his progress. Besides being very well liked with his kind demeanor, his manners are impeccable at the Stable. Hajo is referred to as "The Happy Stallion".

Standing at Stud

Hajo will be taken to Dr. Juane Samper in Langley for collections in the months of March –April 08. Web site - www.vetreproservices.com

Future Schedule

Upon arrival home on Vancouver Island, after a short rest, will be continuing his training, refine his abilities he has shown thus far and continue to advancing under saddle, working with his dressage abilities and on his jumping.

Hajo will also be taken for licensing with the Canadian Sport Horse Association this fall.

We have plans also to show him at the Mane Event with my fabulous assistant. Look for more on Hajo in the upcoming weeks and months ahead.
